

LOGOS Profile

The true values, priorities, and growth predictors of you and your people.

The LOGOS profile is a psychometric assessment that gives insight into leader values and priorities. It identifies highest and weakest traits, core drivers and motivations, and 'role fit' predicting growth in a role. [Find out more](#)

What the LOGOS profile offers

For individuals

- Insight into your Zone of Genius, the optimal areas of focus to maximize your potential and investment of time.
- Tools to recognize and fortify your weakest traits, preventing breakdown through strategic hiring and systematization.
- Knowledge of your core archetypes to inform inspirational and motivational goal setting.
- The ability to understand your partners, team, and clients, and the chemistry within those relationships.
- Insight into your leadership style and shadows, and how you can optimize your style for your team. How you can leverage your strengths and minimize weaknesses in relation to your biggest challenge.

For teams

- Improve team productivity and motivation by aligning roles to individual strengths.
- Prevent losing your best people by discovering and empowering the team to speak to others "core drivers".
- Create a customized development map for each team member to aid growth and engagement.
- Identify aspects of talent are present and missing to inform recruitment, or train new competencies.
